

Community Conversation: Celebrating Strengths, Exploring Challenges, Planning Together

Our upcoming Community Conversation will bring parents, students, and staff together to explore the stories behind our recent Tell Them From Me survey results. The evening is designed to celebrate our school's strengths, unpack areas for growth, and shape ideas for the future — together.

The first half of the session invites students and parents to join in playful icebreakers and small-group discussions focused on two key themes: belonging and feeling safe at school. Using the survey data, families will share what helps them feel connected, what gets in the way, and brainstorm practical ways to strengthen belonging and safety for every student.

In the second half, parents will dive deeper into the parent survey results, discussing communication, engagement, and learning support in rotating small groups. This ensures every voice is heard and a range of ideas are captured to inform future planning.

It's a positive, community-focused event that celebrates what makes our school great while giving families an authentic voice in shaping what comes next.
